STATIONERY

What the heck is 310gsm?

310gsm is the minimum standard card weight we use for our business cards. Yes, we like to keep things low cost and high quality. If you want to lash out on your stationery, we do offer premium stock (up to 650gsm) with fancy things like gold foil and diamantes. We also offer everything in between that you can think of.

GEAR

Can I please order a new name badge for Bob?

We can't believe Bob lost his name badge again! That's okay, that's why we're here. Maybe we can also brand some clothing for Bob, just in case he loses that too. We can print and embroider logos onto work wear so that you (and Bob) are looking your professional best. Our branded sportswear also gives our local teams a professional and edgy look.
